

KAYLA NOEL PARAMORE

PORTFOLIO HIGHLIGHTS

Change maps comparing Central Park's annual tree canopy greenness (NDVI) to a 10-year baseline | Google Earth Engine, ArcGIS Pro

Spatial decision making tool for identifying permeable land for flood management | QGIS

Species growth rate analysis of two decades of NYC tree canopy data | Python—Geopandas, Matplotlib

(Items available upon request)

GIS SOFTWARE & LANGUAGES

Have used for major projects and/or taught to others

- ArcGIS Pro
- ArcGIS Online
- QGIS
- Google Earth Engine
- Python (Pandas, Geopandas, Matplotlib)
- Javascript (Leaflet)
- R (tidyverse, ggplot, simple features)

Have used for class assignments and have some familiarity

- ENVI
- SAGA
- GRASS
- PostGIS (using SQL)
- Python (Numpy, ArcPy)

EDUCATION

Graduate Certificate in Geographic Information Systems

City University of New York, Hunter College *NYC | Anticipated May 2026*

4.0 GPA. Courses in Advanced GIS, Remote Sensing (Google Earth Engine), Web Mapping, Quantitative Methods in Geography, Geocomputation (Python).

GIS Specialization

UC Davis and Coursera

Online | 2020

Five-course specialization covering GIS fundamentals including data types, data analysis, cartography, imagery, and automation.

BA in International Relations & Chinese Language

Calvin University

Grand Rapids, MI | 2010

Dean's List Student (2006–2010). Presidential Scholarship Recipient. Pi Sigma Alpha Member (National Political Science Honors Society).

WORK EXPERIENCE

Department GIS Tutor

CUNY, Hunter College, Geography Dept. *NYC, NY | Fall 2025 - Present*

- Selected as department tutor after one semester of study. Responsible for tutoring all technical classes in the Geography Department.
- 80+ hours of experience helping undergraduate and graduate students grasp key GIS and Remote Sensing concepts and apply them to course work.
- Courses tutored: Intro to GIS (ArcGIS Pro), Remote Sensing (GEE), Geocomputation (Python), Advanced GIS (Open Source Softwares), Data Analysis & Visualization (R).

Geospatial Researcher

NASA DEVELOP

NYC, NY | Summer 2024

- Partnered with the Central Park Conservancy to conduct a time series analysis of the park's tree canopy and explore whether satellite imagery could identify instances of Dutch Elm Disease.
- Used Google Earth Engine in Javascript to run an NDVI timeseries analysis on Landsat 8 and 9 imagery of Central Park. Developed the results into presentation visualizations in ArcGIS Pro.
- Produced technical paper and presentation of research and results. Presented results to an audience of more than 100 at the Central Park Conservancy.
- Nominated for the "DEVELOP'er of the Term" award for my contributions to the team and its research.

Communications and Strategy Consultant (Indep. Contractor)

Outside Voices

Dallas, TX | 2022–2024

- Researched and synthesized major US cities' flood response plans to facilitate stakeholder input for Harris County, TX flood resilience plan. Created presentation to educate stakeholders on flood policy and planning options.
- Co-created a stakeholder engagement strategy for the Lone Star Coastal Alliance (an organization focused on preserving open space along the Texas Gulf Coast) including a communications plan, success metrics, and stakeholder directory.
- Helped run multi-city week of stakeholder workshops. Developed sessions, facilitated small groups of stakeholder conversations. Hosted final workshop day.

WORK EXPERIENCE (CONT.)

Census Enumerator

United States Census Bureau

Dallas, TX | Summer 2020

- Door-to-door survey taker for the US Census during the pandemic.
- Gained experience with federal-level field data collection techniques including survey design and real-world implementation.
- Kept excellent records and case notes. Worked with respondents and building managers to build cooperation and trust. Achieved a top response rate in my area.

Marketing Consultant (Indep. Contractor)

Various Clients

Beijing, China; Dallas, TX | 2016-2019

- Developed custom marketing strategies and products for clients.
- Created an online marketing strategy for the museum design firm, Museum Arts, including website redesign, blog, and social media. Trained staff members to manage each component.
- Designed new brand concept for the restaurant, Nyonya Kitchen, helping to seal its success in Beijing's premier downtown dining district.
- Collaborated with photographer and designer to create a full suite of exceptional photos and bilingual marketing materials.

Online Marketing Specialist

WildChina Travel

Beijing, China | 2014-2016

- Managed full suite of online marketing channels and special projects.
- Maintained company website; worked closely with developers on design updates. Managing editor of the company travel blog. Tracked all online marketing data using Google Analytics for analysis and improvements.
- Managed the launch of a new Chinese-language website, coordinating a team to prepare complete set of copywriting and visual assets.
- Designed presentations for CEO's use at trade shows.

Chief China Representative

Calvin University

Beijing, China | 2010-2013

- Pioneered successful strategy for recruitment of undergraduate students in China.
- Working bilingually, organized multi-city recruitment tours; built networks; presented and held information sessions. Produced localized marketing materials.
- Promoted cooperation between various China programs within Calvin University by identifying and building relationships with key players.

Asian Intern

US House Committee on Foreign Affairs

Washington, DC | Spring 2010

- Researched and drafted policy options for US involvement in Asian regional architecture.
- Edited, fact-checked, and drafted talking points for legislation sent to House floor. Prepared over 20 briefings for staff members on current events and policy issues.
